## PROZONE

Automatic ozone generator

### FEATURES:

Automatic Ozone generator – more effective, and less expensive than an ionizer.

Three-level ozone output, with LED indicator.

Suitable for room volumes from 7m<sup>3</sup> to 100m<sup>3</sup>.

Heavy-duty construction for 24Hr operation.

Optional Light Only/Dark Only, switch-selectable modes controlled by front-panel photocell.

Deodorizes and sanitizes by destroying harmful bacteria, viruses, pollen, and fungal spores.

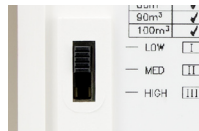

Can reduce bacterial growth on surfaces.

Modular construction for easy installation.

Cassette-based design for simple, “no-tools-required” servicing.

BS EN 60335-1, BS EN 60335-1, and EMC Directive 89/336/EEC compliant.

Overall Dimensions:- H x W x D  
230mm x 161mm x 100mm.

Concealed three-position ozone output switch.

Concealed three-position switch selects between continuous and light-controlled operation.
